GENERAL: Fusion Woven Fabric Repositionable is a highly conformable woven polyester fabric material for wide format printing applications. An acrylic microsphere repositionable adhesive is applied to the back side, with a 92# layflat, polycoated release liner. The printable surface is compatible with a variety of Solvent, Eco Solvent, UV, and HP Latex wide format printing equipment.

Available in 30", 54" and 60" widths, on 3" cores.
