Liner: 52lb MF Paper (3.3 mils = 0.84 mm thickness)  
Elmendorf Tear (MD): 90 grams  
Elmendorf Tear (CD): 150 grams  
Opacity: 90%

**GENERAL:** Fusion Digital Satin Fabric Name Badge is both laser and inkjet printable in most office desktop laser and inkjet printers. The adhesive bonds firmly to a variety of apparel surfaces, but also removes cleanly without leaving residue or staining.

When printing with inkjet printers, the printed image should be allowed to fully dry for at least 30 minutes after printing for best image durability. Inkjet prints are water resistant after the ink has fully dried.

When using laser printers, best results are achieved when selecting Card Stock, Labels, or other heavy media options in the printer setup fields of the printer driver.
